Particulars for off-plan purchases are intended as a guide only. Final finishes to the property may vary. Purchasers are advised to engage a solicitor to check the plans and specifications as laid out in their purchase contract with the developer.

DESCRIPTION

This lovely lake in the most stunning of locations, if you like peace and quiet or even to set up a carp fishing business then this is the place for you, with the correct regulations and permissions.

The lake is over 300year old spring fed closed water lake, this has been fished for over 19 years Depths range from 12ft to 14ft at the dammed wall end, shallowing to 3ft.

Approx 14 years ago the lake was drained, the bottom is silt and gravel.

A septique tank has been installed within the last 10 years but never connected up to anything.

There is also a mobile home on site, and this the selle tells me it is not habitable but perhaps someone could make it so.

At the moment there is no electricity or water connected and EDF quoted 900€ to bring electric supply up to the lands edge, however this was some years ago.

The lake is a project and could easily be made into a great lucrative Carp Fishery business, with the correct paperwork following rules and regulations.

Please ask away if you would like any further information, or would like to make a visit.
