IN BRIEF

Perched above the village of Villarenger (2km from St Martin de Belleville), this sale consists of 2 adjoined properties within the small collection of buildings called La Gittaz. The properties are both in a rudimentary habitable state, but could be combined and modernized to create an amazing bolt hole, close to the ski area. Accessible by a 4x4 track in the months outside the winter season, this hamlet can be reached on foot/ski touring when there is snow on the ground - this takes in the region of 45 minutes from Villarenger.

DESCRIPTION

In terms of floor size, each of the 2 properties is around 45sqm, with some area dedicated to sleeping and some to living. Each property does also have some storage underneath, which could potentially be transformed into additional habitable space, or kept for useful storage.

It is worth noting that mountain alpages are primarily for spring/summer/autumn usage given the location and the difficulty of access during the winter months.
