DESCRIPTION

On the ground floor, the traditional living room features an open fireplace with insert, exposed beams, and double doors opening onto the hallway. From here, a study/office provides an ideal space for working from home, or could be adapted as an additional bedroom thanks to the nearby downstairs bathroom. A separate dining room connects to a light and airy, fully fitted kitchen, with doors leading out to a sunny terrace.

The first floor offers a charming landing, two comfortable bedrooms, an office/TV room, plus a bathroom and WC. On the second floor, there are two further bedrooms, a generous landing, and a third bathroom.

A central patio provides a delightful space for summer dining and leads directly to the indoor swimming pool, heated by solar panels and a heat pump. Beyond, a pretty garden connects the pool area to a separate outbuilding comprising a double garage, wood store, and a spacious workshop/studio, perfect for hobbies, storage, or entertaining.

A further garden with its own entrance offers potential for creating a second home, making this a truly versatile property.
