DESCRIPTION

The property comprises 8 bedrooms in the main house, an independent en-suite guest suite, two generous sitting rooms, a breakfast salon with secondary kitchen, and a spacious multi-purpose room currently arranged as a yoga and wellness studio.

Substantial investment has already been made, including a new roof on both the house and stone barn, double glazing throughout and a new swimming pool liner, ensuring that many of the most significant capital works have already been completed.

The property currently has a DPE rating of F, and we believe in being completely transparent. The guide price of €445,000 has been set to reflect the remaining improvements recommended enhancing year-round comfort and energy efficiency, including upgrading the heating system, installing roof insulation, fitting a mechanical ventilation (VMC) system and completing recommended works to the fosse. Unlike many properties with a similar energy rating, the principal structural improvements have already been carried out, allowing future owners to focus on improving comfort and efficiency rather than major building works.
