DESCRIPTION

Surrounded by 6.8 hectares of private forest, this secluded and fully enclosed carp fishing lake offers a unique opportunity to acquire a peaceful and well-established angling venue in the heart of the countryside.

The spring-fed lake benefits from four natural water inlets, helping to maintain excellent water quality year-round. It is stocked with approximately 110 carp, including impressive specimens reaching up to 78lb, with at least five fish over 70lb — making it highly attractive to serious carp anglers.

The lake holds a fishing licence valid until 2040, and the current owners have successfully operated the site, with bookings already secured through to 2028, offering immediate income potential.

A key feature is the solar-powered lakeside cabin, providing comfortable off-grid accommodation. The cabin includes a kitchen area, shower room and WC, creating a practical and welcoming base beside the water. WiFi is installed, and a borehole water supply ensures independence and ease of use.

Around the lake, several smaller cabins are currently used for storage, offering additional flexibility for equipment or potential further development.

Fully fenced and surrounded by woodland, the site offers complete privacy and tranquillity, ideal for those seeking a lifestyle change, a fishing business, or a private retreat immersed in nature.
