DESCRIPTION

Exceptional Historic Stone Mill with Private River Access, Swimming Pool & Development Potential – Provence

A truly unique historic property dating back to 1810, beautifully renovated and set in an exceptional riverside location in the heart of Provence.

Originally an olive oil mill (Moulin à l'huile), this character-filled property combines authentic Provençal architecture with comfortable modern living. Set within walking distance of a popular village and its amenities, the property enjoys direct private access to the river, with magnificent natural swimming spots and a beautiful waterfall immediately below the house.

The setting is particularly special, with stunning views across the river and surrounding countryside, yet the property is conveniently located just 6 km from Cotignac, one of the Var's most sought-after Provençal villages.

The house is full of charm and original character, featuring exposed stone walls, traditional terracotta floor tiles, exposed beams, generous volumes and beautifully preserved architectural details.

The main living space is centred around an attractive open-plan kitchen and dining area, leading into a cosy sitting room with fireplace and a large terrace overlooking the river. Above, a mezzanine library area looks down over the living space, creating an impressive sense of volume.

One of the property's most striking features is an incredible vaulted room with arched architectural details. Currently an open space, this could provide a wonderful additional living room, studio, entertaining space or potentially create further bedrooms, subject to the necessary permissions.

The property currently offers four generous double bedrooms, including a principal bedroom with en-suite bathroom...
